# Welcum

sup bitchez

congratu-fucking-lations!! we are SO excited to welcome you to the group. this guide contains everything you need to know to join this little group of ours.

take note that while you're in your pledge period, you could be stopped on campus at ANY time and asked information on any of the rules or history of the group, as well as ANY of the members presented in this book. the dynamics of this group are fragile, and it is integral that we all stay aware of each other and ourselves.

again, we are so happy to have you as a part of our group. can't wait to see you at the initiation party.

xo, stacey

p.s. hidden in the pages of this book are materials that will give you more insight as to what the members of the brightyoungthings are really about. these r hidden, and i highly recommend you find them before the initiation party. once you're in the group, there's no going back. this is a choice you're making. take it seriously. ok, for real, have fun xxx
